Department of Fish and Game Workshops

The DFG is conducting a series of informational workshops in connection with the release of the Draft Environmental Impact Report/Environmental Impact Statement for the proposed Lake Davis Pike Eradication project. The workshops will provide the public with the opportunity to hear presentations from experts on four topic areas related to the DEIR/EIS and to ask questions to help them review and comment on the document.

Pike Eradication Project Alternatives:

The Evaluation Process and EIR/EIS Alternatives

This workshop focuses on the DEIR/EIS's alternatives for pike eradication. Two main topics will be addressed: 1) how the alternatives were evaluated and selected; and 2) what alternatives are included in the DEIR/EIS.

June 21, 2006 at 6:00 p.m.

Portola United Methodist Church
396 Second Ave., Portola

Rotenone Formulations and Use

This workshop focuses on potential rotenone formulations included in the DEIR/EIS, their chemical composition, and the advantages and disadvantages associated with each.

July 11, 2006 at 6:00 p.m.

Portola Station Baptist Church
Fellowship Hall
171 S. Gulling St., Portola

Groundwater Issues

This workshop focuses on groundwater, well water and chemical fate and transport.

Aug. 2, 2006 at 6:00 p.m.
